

STRENGTHENING PARTNERSHIPS TO EXPAND HORIZONS

Connecting leaders, knowledge & opportunities for seamless global expansion.

This September marked a major milestone for Octagona India. Our Director, Vishnu Krishna, joined CEO Alessandro Fichera in Bologna, Italy to represent Octagona at **FARETE 2025**, a stage where knowledge on corporate formation, tax compliance and operating models was exchanged with industry leaders eager to explore India's market potential.

Adding momentum to this collaboration, both came together once again on **5th September in Milan** for delivering a **Webinar on BIS** in association with Federlegno (an association of

furniture manufacturers in Italy), where they shed light on new compliance frameworks from BIS for furniture manufacturers.

During Vishnu Krishna's trip to Italy, a number of Italian companies were met ranging from diverse sectors such as automated warehousing and access control to gearbox and pump to fire extinguishing device manufacturers. The common theme across these meetings was how to enter or expand in India in the most sustainable manner.

POSH ACT, 2013

Fake it and → Pay ₹50,000

Legal Consequences for Violating Workplace Safety Laws

The Honourable Supreme Court has flagged that many organizations either:

- Do not have Internal Complaints Committees (ICCs) or
- Have them only on paper, without proper functioning.

To address this,

The Court has directed all States & Union Territories to conduct district-level POSH compliance audits

Within six weeks from the date of the order.

Disclaimer: Readers are advised to undertake their own due diligence and may reach out for consultation if required.

From The Desk

Last month, our project management team took on diverse assignments in market research and partner search, spanning luxury fashion, nutraceuticals and engineering components. From analyzing the shifting dynamics of India's luxury retail landscape to exploring opportunities in the booming health and wellness sector and mapping growth potential in specialized engineering solutions, our work provided clients with clarity and actionable insights. On the partner search side, we continued our role as "business matchmakers," shortlisting credible distributors, integrators and joint venture candidates who fit our clients' strategic goals. These projects reflect our commitment to helping businesses make informed decisions and build sustainable partnerships in India's evolving market.
